TESTIMONIALS

Prachi Bandi (PGDM Finance 19-21)

Being in TIMSR is an opportunity to grow ourself and develop our skill. TIMSR has been a step towards our bright future. Being a management student, I personally feel that this institute shapes the future of upcoming generation and builds their skill

and develops the habit of continuous learning of new things every time.

Santosh Vetam (PGDM Finance 19-21)

It has been a good learning experience. I have substantially increased my knowledge and confidence. The KSA approach is very relevant and TIMSR is helping me to groom my overall personality.

Kartikey Rai (MMS Finance 19-21)

I was a little skeptical about coming back to college after my job experience but I was wrong. TIMSR is full of positive vibes and every individual is respected here which made me comfortable. The faculty here is more like mentor and always helps us stay

updated academically as well as emotionally. It's an honor to be a part of TIMSR family and after all the initiatives taken by the people here for the betterment of my career, I would be highly obliged to do something for TIMSR before I graduate.

Bhavit Shetty (MMS Marketing 19-21)

It's very difficult for a person to leave his job and come back to college to pursue further education but in my case, I was fortunate to join this esteemed institute where the faculty not only teach their students but also mentor them and groom

them in such a manner that they can easily succeed in the corporate world. I would always be there for TIMSR as an active pillar just in the same manner as TIMSR is supporting me and my goals.
